NCD has been shown in clinical trials to rapidly remove toxic heavy metals without a detox effect, balance ph levels of human blood to around 7.4, nullify deadly nitrosamines, act as a broad spectrum antiviral and antioxidant, normalize immune systems, capture triggering antigens, improve nutrient absorption and aid digestion.

**Himalayan Goji Juice** - The Goji Berry is famous for centuries in Asia for its life-giving and health maintenance properties. It gives you abundant ENERGY! Now there are scientifically validated tests to determine efficacy so you can guarantee quality and consistency of results. It's a great tonic for everyone in the family to get a range of essential nutrients in a very tasty and easily consumed drink.

**Energy, Sleep & Face Lift Patches** - A patent pending breakthrough in the latest science of Nanotechnology, Lifewave Energy patches are a NEW concept for increasing energy in the human body.

Sleep Patches induce Delta waves. Nothing enters the body! Totally safe and completely legal for high-level sports performance and ideal for fat loss, they "tell" the body to burn fat, not carbohydrate, thereby releasing more energy. Double-blinded placebo controlled university studies prove their effectiveness. Get up to 400% (yes that's 400%) increase in energy within 10 minutes of application to your body.

**Visual Fitness Planner** - Unique Body Transformation Software predicts what customers can look like if they lost weight, gained muscle tone or reduced their health risks. Each consultation provides a motivational personalised plan. VFP is now customisable to your corporate image and integrates with many other software applications. Clubs using VFP report massive increases in member sales & retention.
